Incidentally, U. S. Atty. Bernsteen of Cleveland took issue with Lincoln C. Andrews, dry enforcement chief, that the sale of non-intoxicating beer for consumption only in the home might aid in making administration of the prohibition laws more effective. He asserted that every place where such beer was sold would become a potential dispensary for hard liquors, thus increasing present difficulties in law enforcement.

The public, while clamoring for "decency on the stage," continued to flock to the shows that were known to be salacious and against which we were contemplating action, while the clean shows played to poor or moderate houses.

That's just another example of the hypocrisy of many people.

the British attitude toward Premier Mussolini's rumored agreement with Greece to partition Turkey, and while it does not mean approval, or even benevolent neutrality, it indicates the hope that something good for Great Britain may be gained by the development of the new situation.

As a matter of fact this has already happened. The Turks have had the first real scare of their lives, and during the last two or three days Shevri Pasha, Turkish charge d'affairs in London, has been haunting the British for protection against the Italo-Greek bogey man.

Rated as two of the strongest prep track teams in South ern California, Polytechnic and Hollywood will be heavy favorites to capture the annual S.C.I.F. meet at the Coliseum on May 1. With an unprecedented orgy of record-breaking going the rounds all over Southern California there is every reason to believe that the all-southern meet will be the greatest in the history of prep competition. San Diego, Riverside and Pasadena are doped to furnish the local schools close competition. Zack Farmer's big bowl will be the mecca toward which several hundred athletes will head on Saturday afternoon, when the trial heats are held.

when the trial heats are held.

From the marks that have beened and this season, the records set last year are almost sure to be bettered with the exception of the mark and half a dozen more who can amble the mile and half - mile or state the present record. The hundred with the steeption of the mile and half a dozen more who can amble the distance under \$2a. McArthur of Huntington Park is a likely-looking prospect to chase Gantt. The hundles will bring a galaxy of stars to the front. Jimmy Meeks of Hollywood is an outstanding favorite to break both barrier marks. Jimmy's low-hurdle time of 18.3 in the high sticks several times this season, is a close rival. In the low set's Southern california discus mark which was set at Oxnard High School is in real danger. Bud's record is around 136ft. The old files fail to show the actual mark, but it was under the 140ft. mark, Eddle Moeller, San Diego's super athlets, set the C.I.F. record of 143ft. 8's in.

Compton has a really great high school sprinter in Cecil Howard, who is the most consistent \$9.5a. performer in Southern California century ranks. He also steps the 220 in \$1.5, but will have to go some to beat Vie Klein's mark of \$1.7 set in 1824. Akers of Riverade, who helds the hundred record at 19c. flat, may be unable to compete this year. Gant of Poly and Hill of Hollywood are the cream of the local dash mes.

RUNNING AWAY WITH THE SPOILS AT KANSAS RELAYS Joe Pipal's Occidental College tracksters are now in Philadelphia preparing for the Penn Relays there tomorrow and Saturday. Southern California fans have not yet forgotten the impressive showing the Tigers made at Kansas last week where they won honors in a flock of races. Top photo shows Vernon "Bud" Nash, anchor man on the half-mide team, breaking the tape an easy winner in 1m. 28.1s. The time was a new Kansas Relay record. Bellow Carlyle Bailey, of the Bengals is seen near the finish of the one-mile erlay, being hard pressed by a runner from Knox College of Galesburg, Iii. Oxy's time was 3m. 25s. for the victory.

amuck on the bases. There is nothing in a ball game any more fascinating than watching some foxy old coot like lilly Lane insulting the pitcher by faking a twenty-foot lead off of first base and after folling half a dozen attempts to catch him asleep, turn around and steal second.

The proprietor of this column isn't any more of an admirer of Jack Dempsey than the average fan. His constant refusal to do battle gives us a severe pang in a certain spot and we'd enjoy nothing more than seeing somebody knock him so flat that people wouldn't care if he never did fight again. BUT—when Bro. Dempsey does step back into the areta, we are not going to wager very much that the above event takes place. Jack keeps himself in good shape and he's a great fighter, and unless somebody comes along who is a lot better than any of the heavyweights we've seen he's not likely to be trimmed.

Our old college chum, Hal Gorham called up from the wilds of Ojai to atmounce that the annual tennis tournament utilch takes place up there next week is going to be the greatest in history. cigarette as is a cigarette!

BOY, howdy! You'll say so the first one you roll with Prince Albert, the better tobacco for cigarettes. P. A. rolls slick as a whistle. Doesn't flutter away on the first breeze or spill all around. That's because P. A. is crimp-cut. It burns better for the same reason.

And that taste! There's the real test after all. A cigarette made with P. A. tastes so good you'll be making one right after the other. From morning right up to closing-time. Cool as a breeze from the North. Sweet as butter-taffy. Fragrant as wind-blown blossoms. That's Prince Albert! Good old Prince Albert, the better cigarette tobacco.

For good measure, the Prince Albert rocess cuts out bite and parch. Millions of grateful tongues have spoken about this important feature of P. A. You just never tasted a home-rolled cigarette that gave you so much downright pleasure. Get a tidy red tin or a toppy red bag of P. A. today and see.

It's the quality tobacco in Prince Albert that makes such a cigarette. This same wonderful tobacco goes great in a jimmy-pipe also. Try it. Tuck a neat wad of P. A. into the business end of your favorite pipe and light up. Your face will light up at the same time . . . and for a good reason!

The Fascist insignia-symbol of the new empire was outlined to night in electric bulbs upon the Collseum, the Arch of Titus, the Rome of Emperor Augustus, which Mussolini desirea to see live again within the brief space of five years. It is doubtful whether any Roman Emperor returning from warattained the popular acclamation accorded to Mussolini on this, his first great public appearance since his triumphal and peaceful advance through Italian North Africa.

The Premier sat this afternoon on an improvised throne-like platform between the Arch of Constantine and the imposing ruins of the Collseum reviewing 60,000 school children. There were nothers and in many eyes there were tears. The Premier's seat was surrounded—much after the fashion of the Roman emperors—by trophies, which included gilded crowns and pleces of the ruins from the Temple of Venus.

France and Spain and the Riff failed to agree on the armistice terms at their conference here this afternoon, and the sitting was adjourned indefinitely. In the meantime the delegates will consult their respective governmenta.

The morning conference was conducted at Oudja, and the afternoon meeting at El Alouan. The discussion continued for four hours and was devoted largely to consideration of the question of exchange of prisoners. The Riffnass were prepared to make concessions on this point provided the allies yielded on the occupation of further territory.

I'm going to hit this Jailoring Mix-up, like a Fiery Comet from the Skies!

Hever before in my whole career dave t offered my fine Tailoring such a smashing low Price!

THERE'S A GREAT DEAL OF CONFUSION AND MIS UNDERSTANDING IN CLOTHING CIRCLES...AND I'M GOING TO ENDEAVOR TO ADJUST MATTERS. TAILORS AND READY-MADE DEALERS OF LOW PRICED CLOTHES HAVE BEEN PUBLISHING SENSATIONAL ADVERTISEMENTS...CLAIM-ING LOW PRICES, AND UNBELIEVABLE VALUES...BUT AS A MATTER OF FACT, THEY'RE MERELY DOING EXACTLY WHAT THEY DO THE YEAR ROUND...MAKING FICTITIOUS CLAIMS AND YOU FAR-SIGHTED MEN KNOW IT, FOR YOU KNOW THAT CA POR Bim GOOD MERCHANDISE DOES NOT COME CHEAPLY!

Now, the legitimate Custom Tailors of good reputation, resent these far-fetched claims for inferior goods...and because I've always taken the lead in Tailoring circles...I'm going to defend this legitimate cause!

There's a vast difference between custom tailored clothes and the ordinary "always on Sale" kind...and I'm out to prove this vital fact to countless other thousands...through this epoch-making offer:

MY BIG 15-DAY

About Woolens

About Woolens

Before you buy a suit of any kind
—anywhere—let me tell you how
to test woolens. I don't hesitate to
tell the truth—because every inch
of fabric in my gigantic stock is of
pure, virgin wool—long Australian
stock! And when you select a pattern that suits your fancy—I welcome every test you care to make.
Crumple it in your hand and watch
it spring right back to shape—singe it—soak
it—or use the acid test if you prefer! I
don't care—because you'll not find a thread
of cotton or shaddy in my stock. What's
more—you'll see patterns here that you
won't find anywhere else—because I don't
buy from jobbers or middlemen. My woolens come direct from Domastic and Foreign
mills—and the patterns are confined exclusively to me—without question the greatest
selection of fine new Worsteds—French
backs—Tweeds—Herringbones—Basket
weaves—Serges and Hard Surfaced Cashmeres—that you'll not find anywhere in
America—every yard personally guaranteed
to be perfect, first quality woolens that will
wear well and retain both shape and color.

Demonstrations

A T OUR main store, 1100 So. Grand avenue, Los Angeles, we will hold from Thursday, April 22nd, to Saturday, April 24th, a Camp Goods Show. Here, surrounded by scenes typical of the West, lovers of outdoors may inspect at their leisure, modern conveniences that make camping the most healthful, restful, enjoyable and popular recreation.

With present day Camping Equipment, the "rookie" as well as the "old timer," the weak as well as the strong, the old as well as the young, the women and children as well as the men. can obtain the full measure of health, comfort and pleasure that Mother Nature has stored away for us in the many wonder spots close at hand.

Practical Demonstrations

You will be shown how you can take the "comforts of home" with you.

A FOLDING CAMP STOVE on which you can bake and roast just as successfully as you do with your stove at home. You can bake the same light fluffy biscuits, and make the same brown "hot cakes."

A FOLDING SPRING BED that has all the resiliency and gives the same comfort as your bed at home.

A PORTABLE KITCHENETTE in which you can carry perishable foodstuffs and the season's delicacies.

AND MANY OTHER camp comforts will be demonstrated.

Colburn's Exhibit

of game fish and birds of California will
make you think back to that enjoyable trip when
that "whopper" gave you such a game battle and
you would have landed him if—

Fly Tying Demonstration
Mrs. Culver of the Culver Pishing and
Tackle Company of Bishop, California, an authority on fly tying, will show you how to tie the
kind of fly that will fool the wisest trout.

First Hand Information
Guides, Packers and Mountain Resort Owners will be on hand to tell you about your favorite vacation spot.

Entertainment

You will be entertained with music and songs between the hours of 7 and 9 p. m.

Radio Stars in Person

The famous Western Giant Cord Orchestra, under the direction of Jack Cronshaw, whose music you have often heard over KNX, will play for you every evening during the Show, from 7:30 to 9:00 o'clock.

The Optimist Quartet (a thousand pounds of harmony) will also be on hand every evening.

Dan Gridley, tenor, whose splendid voice has often thrilled you as you listened to him over the radio; Frank Geiger, popular basso, and others, will be here to make your evening enjoyable.

Elite Trio, those three charming young ladies who have made radio fame, will also play and sing every evening of the Show, between 8 and 9 p. m.

See How Radio Is Broadcast

On Saturday night. April 24th, between 9 and 10, a radio program will be broadcast from the Show and released by remote control through KNX.

Like most people, you probably have wondered how radio is broadcast. Here is your opportunity to solve the mystery.

Radio Philosopher to Announce

G. Allison Phelps, the Radio Philosopher and Town Crier of the Night Watch at KNX, will announce the program in his inimitable manner.

A Word About Our Company

Many outdoor enthusiasts have learned to look upon Western Auto Supply Company as Camping Equipment Headquarters. This reputation is the result of years of fair dealing. It has always been our policy to carry only those essentials that add to the comfort and safety of the campers.

A Show Worth Seeing

Your time will be well spent. You will go away with a better understanding of Camping Equipment and its possibilities. You will be better able to plan your vacation—you will know how to get more rest and real pleasure out of your camping trips.

Come any time-stay as long as you like.

Our experience should equal that pictured by Isaiah:

"Ye shall go out with joy, and be led forth with peace; the mountains and the hills shall break forth before you into singing, and all the trees of the field shall clap their hands. "Instead of the thorn shall come up the fir tree, and instead of the brier shall come up the myrtle tree."

Instead of the thorn and the brier we shall have things of use, beauty and fragrance. Instead of discord, harmony. Instead of suffering, happiness. Instead of war, peace.

Awake to the power of music broadcast to the world we should consecrate ourselves to make its message constructive, inspiring, healing.

Primitive man used wind, percussion and stringed instruments.

Music existed in oriental countries at least 5000 years ago.

The "harp and organ" are mentioned in Genesis.

The great patron and author of sacred music in Bible history was David.

He must have been an artist of ability also. When Saul's spirit was heavy—"David took an harp, and played.... so Saul was refreshed, and was well, and the evil spirit departed from him."

Some of the instruments "ordained" by David were the harp, psaltery, timbrel, cornet, cymbals, trumpet. "And all the congregation worshiped, and the singers sang, and the trumpeters sounded."

This was a thousand years B. C.—at the time the Phoenicians were devising their alphabet.

The first important discoveries of the laws of sound were made in the sixth century, B. C., by Pythagoras.

Modern development of music dates principally from the eighteenth century, and is a little older than our Constitution.

America has attained leadership in government and business. It has yet to ascend the heights and make its mark in music.

The East had the country to bring up and establish. The West did not have part in those early responsibilities. Let the West now bring forth music that shall lift men to new spiritual heights and seal an everlasting peace.

This week Santa Monica is privileged to entertain the music clubs of California. The Bay Cities Music Association is the host. Artists from California cities are participating as well as artists of national fame.

Santa Monica's principal offering is the Santa Monica Symphony Orchestra, conducted by Modest Altschuler—internationally known, and for twelve years conductor of the Russian Symphony Orchestra in New York.

The Bay Cities Music Association has the privilege of instruction and leadership by Maestro Altschuler. It also has the counsel and active participation of L. E. Behymer—"impresario of the West"—as one of its directors.

We believe that California will be a scene of great musical unfoldment. It is natural and fitting that it should. Favorable circumstances of beauty, climate, and nearness to a metropolis and to cultural activities indicate that Santa Monica will not be behind in this very important development.

Santa Monica Club greets the music clubs—artists, composers, students and patrons of music—in convention. We wish that your visit may be pleasant and profitable. You are all Californians.

First. Every week for eight weeks five prizes will be given for the best five ads written about each concern participating in the campaign.

Second. The best ad written each week for eight weeks will win a \$50.00 prize. Third. Five hundred dollars (\$500.00) in cash will be given for the best ad

written during the entire campaign.

N ADVERTISEMENT is a message directed to reach readers. These messages are written by men and women who specialize in this work. These men and women are paid according to their ability in getting their messages read by the public.

In this campaign we reverse the picture by asking the public to write the ads and the experienced advertising men and women will act as judges.

The viewpoint of a customer is sometimes worth more than the viewpoint of an advertiser. For this reason Los Angeles Times and a number of the leading firms of the city are co-operating in an effort to interest the public in this novel way of getting the viewpoint of the reader instead of the advertiser. Los Angeles Times will give \$10,000 in cash and prizes for the best ads received.

A Contest That Will Appeal to All

Two reasons why this contest should appeal to you.

1st. You will be interested to see what kind of an ad you can write, and the fun you will get by writing these ads, letters or ideas.

2d. \$10,000 in cash and prizes certainly provides a powerful incentive to demonstrate your skill. Try and see what prizes you can win. It will not cost you anything to compete for the prizes.

You might say: "I never wrote an ad and do not know anything about advertising, and for that reason I will not have a chance to win.' That is absolutely wrong. If you did know advertising and you had written advertising before and you were a professional advertising man or woman, you would not be allowed to compete. It is the people like you who are invited to enter this contest and win prizes.

Everyone Can Write Ads

If you can write a letter you can write an ad. Everyone can write letters, so everyone can write ads. The kind of ads we want are very simple to write. This is all you have to do: For example, take a piece of paper and a pencil and write the reasons why you like Hauser Pride Hams and Bacon and Hauser Select Sausage and other products. First, you will think of the fact that they have been produced fresh daily in Hauser's big sanitary plant, right here in Los Angeles, for fortyfour years. They are produced from carefully selected young, thin-skinned, corn-fed, Eastern hogs. Hauser's Pride Hams and Bacon are sugar-cured with the mildest process and smoked with genuine hickory wood from Ole Virginia. Hauser Selected Sausage is a pure meat product, and contains no cereal, is not artificially colored or dyed. Its natural coloring is from the hickory smoke.

You certainly should be able to write good ads about California's famous gasoline-Richfield. You can talk about its quality, or that it is used by the world's greatest drivers and holds more A. A. A. official speedway victories and world's records than any other gasoline in the world. The fact that it was chosen by the Detroit Arctic Expedition is almost an ad-

In writing an ad for homes, you might put into words the fact that the Pacific Ready-Cut Homes Or ganization, being one of the largest concerns of its kind, is able to buy building materials in colossal quantities at lowest cost and eliminate waste and can therefore construct homes at less cost, emphasizing the fact that prospective homeseekers can inspect specimen homes at 1330 South Hill Street.

The 38 years in which Christo pher's Ice Cream and Christopher's Candies have been manufactur and recognized for their high quality in Los Angeles, should make it easy for anybody to write ads about them. Most everybody knows their goodness.

These are some of the "talking ing firms in their own advertising You may be able to discover new

Your ad may be a letter, slogan, phras anything you write about a firm or a product will constitute an ad. Then write your name and address on the back of the sheets, then take another concern at write the best idea you can about it, and so on until you have written about ever one you care to or all the advertisers in the list (as the more you write about, the more chances you have to win the prizes). (EXCLUSIVE DISPATCE)
CLEVELAND, April 21.—Iro

AHEAD OF 1925

AHEAD OF 1925

All comparisons at this point with 1925 are in favor of the present year. A year ago, the high tide of demand in the early months was reached fully three to four weeks accorded in the early months was reached fully three to four weeks accorded to the fell away until July. Bookings today are well ahead of those of twelve months ago and shipments, too, by a lesser margin. Judge Gary's summary of the steel corporation's present market position is illustrative of the better situation. This shows bookings to be 65 per cent greater than a year ago, but 20 per cent below a month ago, shipments to be 2 per cent ago, shipments to be 2 per cent down from the March top.

Prospects still are considered promising. The automobile industry yet has to show any evidence of sharp general curtailment. A careful survey of well-matured building projects in Central Western territory looking to Chicago for material, shows a total of 104 jobs calling for 130,000 tons of structural material, which should go ahead this year. Railroad buying is not conspictous, but steady. Road building programs developed by various States will call for 100,000 tons of reinforcing steel, according to Iron Trade Review's annual survey in this field.

Gain in Public Interest structive standpoint was the moderate increase in public participation. While buying for outside account was by no means large, it was indicative, nevertheless, of a slow return of confidence, which had been shattered by the unprecedented collapse of values in the February-March break. Commission-house brokers were more active than they had been in several months and odd-lot buying accounted for a greater proportion of the turn-over. What looked like public buying ran largely to the better-grade rails and some of the industrials. There was a well-defined tendency to avoid the less-seasoned specialities that had been the worst sufferers on the break.

The further relaxation in the call-money rate to the lowest since early last fall, while it was regarded as a highly constructive factor, did not come as any great surprise. Soon after the renewal rate had been fixed at 4 per cent, it was rumored around the street that one big bank had a lot of some \$10,000,000 in funds available for loan on call at a haif per cent under the renewal figure. The action of the time-money market over the last few weeks was indicative of the huge volume of idle funds seeking employment. Money brokers are of the opinion that a period of extreme ease in credits is at hand and that funds for speculative purposes will be available at 3 per cent unless something hap-

pens to take up the slack. Call money got down to 3 % per cent to-day for the first time since September 20, last year, and in the unofficial market funds were to be had as low as 3 per cent.

RUSINESS

Golden State Milk Products Company is the principal manufacturer and distributor of butter upon the Pacific Coast, and deals both nationally and internationally in various California dairy products. The company is the largest exporter of butter in North America, and Golden State butter is the only American butter sold throughout the world under its own brand.

The company owns and operates twenty-one large modern manufacturing plants in the best dairy sections of California and is the proprietor of the most widely known butter brand on the Pacific Coast—GOLDEN STATE.

In the marketing of this butter and other dairy products, the company maintains sales branches in all the principal cities in the United States, including a six-story warehouse and office building in New York City.

SECURITY

These bonds will be directly secured by a first mortgage on real estate and plants appraised as of February 28, 1926, at \$1.839,767.43, and by pledge of the company's controlling interest in certain subsidiary companies, the conservative value of which interest is \$162,600. The company covenants under the trust indenture to expend not less than \$400,000 within the next 18 months for acquisition of additional plants which shall be subject to the lien of this issue.

Current assets amount to \$1,594,162.21, as shown by balance sheet of February 28, 1926, and are more than four times current liabilities.

EARNINGS

The company has enjoyed a steadily increasing volume of business throughout its twenty-one years' history. Net profits after Federal taxes and available for bond interest have averaged two hundred seventy-one thousand fifty-nine dollars' and nineteen cents (\$271,059.19) per year for the past seven years, or more than two and one-half times the maximum annual principal and interest requirements of this issue, and amounted to four hundred four thousand four hundred forty-five dollars and one cent (\$404, 445.01) for the company's fiscal year ending February 28, 1926.

PURPOSE

The proceeds from the sale of these bonds will be used to refund a previous issue of 7½ per cent bonds and other obligations and to acquire additional plants necessary for the expansion of the company's business.

All legal proceedings incident to the issuance of these bonds have been approved by Messrs. Gavin McNab and Oliver B. Wyman for the company and by Messrs. McKinstry, Haber and Firebaugh for the underwriters.

UNION TRUST COMPANY, CHICAGO, TRUSTEE

Information furnished by officials of the Company is summarized as follows:

Company
Shaffer Oil and Refining Company, incorporated in Delaware May 31, 1919, is a balanced, self-contained unit of the petroleum industry, embracing fully within its own organization, complete properties and facilities for the production, refining, transportation and marketing of its products, which are distributed under its widely known DEEP ROCK trade mark. The refinery, with daily capacity of 10,000 barrels, is located at Cushing, in the heart of the Mid-Continent field. It is a completely equipped plant, covering 391 acres, and includes a cracking plant, paraffin wax and lubricating oil equipment, and tank storage capacity of 2,090,000 barrels. Fuel requirements of the refinery are supplied by gas from the Company's own sources. The cracking process used is one of the most efficient known today. In addition there are four casinghead gasoline plants with total daily capacity of 20,000 gallons. The Company and its subsidiaries produce 75,000,000 gallons of gasoline products annually.

The Company owns oil leases covering 75,800 acres of oil lands in Oklahoma, Kansas, Arkansas, Colorado, Texas and Louisiana, 10,600 acres of which are developed and on which are located 525 producing wells. Present daily production is approximately 10,000 barrels. The Company has its own pipe lines and gathering pipeline system, totaling 322 miles, and gathers and pipes all of the crude oil which it refines. It also owns 631 tank cars and has under a favorable five-year lease 250 additional tank cars, practically all of eight to ten thousand gallon capacity.

Through subsidiaries, the Company has retail distributing facilities through which are marketed annually approximately 50,000,000 gallons of gasoline, 8,000,000 gallons of kerosene, 4,000,000 gallons of domestic heating oil, 2,000,000 gallons of lubricating oils—largely high grade motor oils—and 1,000,000 gallons of fuel and miscellaneous oils. This retail distributing business is increasing at the rate of over 10 per cent annually. The principal distributing territory includes Illinois, Indiana, Minnesota, Wisconsin, Iowa, Nebraska, Oklahoma, Arkansas and North and South Dakota, in which are located 248 bulk stations and 180 service stations.

Farnings For the twelve months ended February 28, 1926, net operating earnings of the Company and its subsidiaries amounted to \$4,839,859, or over 5.5 times the annual interest requirements on the total outstanding funded debt, including this issue of notes, and such earnings, after deduction for depletion and depreciation, were over four times such annual interest requirements.

Empire Trust Company, New York, Transfer Agent; Chatham Phenix National
Bank and Trust Company of New York, Registrar.

The Company agrees to make application in due course for listing this stock on the New York Curb, the Pittsburgh and Boston Stock Exchanges.

The Atlantic Refining Company of Philadelphia has by contract acquired an undivided one-half interest in all the Andes Petroleum Property in South America.

The Venezuela Gulf Oil Company (subsidiary of the Gulf Oil Corporation of Pittsburgh, Pa.) has contracted to purchase from the Andes Petroleum Corporation and the Atlantic Refining Company, jointly, 5,000 hactares (12,500 acres) checker-boarded in the district of Mara, Maracaibo Basin, Venezuela, for an amount in cash, a payment in oil and a satisfactory royalty.

erised from a letter to us from Mr.A.Louis de Brigard, Vice-President of the Corpor

HISTORY: The Andes Petroleum Corporation, a Delaware Corporation, was incorporated February 6, 1922, for the purpose of acquiring and developing oil concessions in Vene-

PROPERTIES: According to a geological report made by Huntley & Huntley. Petroleum Geologists of Pittsburgh, Pa., the properties of the Andes Petroleum Corporation are favorably located (having two deep seaports in the Gulf of Maracaibo); have excellent possibilities, and in many cases contain live seepages.

The properties of the Andes Petroleum Corporation and its subsidiaries, in the Republic of Venezuela, comprise upwards of 4,000,000 acres, which makes the Andes Petroleum Corporation the third largest oil land concessioner in Venezuela. Of its holdings, 1,150,000 acres are located in the famous Maracaibo Basin, bordering the properties of the following major oil companies or their subsidiaries: Standard Oil Company of New Jersey; Texas Oil Company; Pure Oil Company; Maracaibo Oil Exploration Company; Gulf Oil Co. and the properties of the three British companies known as the Dutch-Shell Group. In Colombia the Corporation has 740,000 acres in the Magdalena Valley, making the total holdings of the Corporation around 5,000,000 acres.

ATLANTIC REFINING

Associated with this Company in the development of these Venezuela concessions is the Atlantic Refining Company. By virtue of a contract between the Andes Petroleum Corporation all the properties of the Andes Petroleum Corporation. In return, the Atlantic Refining Company has agreed to undertake, at its own expense, the geologizing and engineering, required under the laws of Venezuela, as well as the payment of the first year's exploitation tax. After completion of this work, development expenses will be borne equally by the Atlantic Refining Company and the Andes Petroleum Corporation, not only on drilling of wells, but also, at the option of the Andes Petroleum Corporation, on the construction of pipe lines, terminals, etc. Men and equipment, necessary to carry out the Atlantic Refining Company's portion of this agreement, are already in the field.

VENEZUELA GULF OIL COMPANY, a subsidiary of the Gulf Oil Company, has entered into a contract to purchase, for cash, from the Andes Petroleum Corporation and the Atlantic Refining Company, 12,500 acres on the checker-board plan in the District of Mara, State of Zulia. Under this contract the Venezuela Gulf Oil Company further agreed to drill at least two wells at its own expense, make an additional paygive the Andes and Atlantic companies, jointly, a substantial royalty interest in the

PURPOSE OF ISSUE: The proceeds of this issue are to be used for the purpose of paying 50% of the cost of the drilling undertaken with the Atlantic Refining Company, and to provide additional funds for working capital.

MANAGEMENT: The management is under the direction of nationally known business and banking executives and experienced oil operators. The officers and directors of the Company are: John H. Allen, President, American Foreign Banking Corporation; Anthony Andujar, President, Andes Petroleum Corporation; John C. Cosgrove. Chairman of the Board, Cosgrove Meehan Coal Co., Director, Federal Reserve Bank, Philadelphia, Pa.; Louis de Brigard, Vice-President and Treasurer, Andes Petroleum Corporation; Philip deRonde, President, Oriental Navigation Company; R. Sharp Drop in Money Rate Spur to Trading

Warmer Weather Prospect is Also Factor

NEW YORK, April 21.—Raffrond shares led a sharp upward move-ment of prices in today's market. It was the most impressive recov-ery since the dragtic break last month. Final quotations, which were generally around the day's highs, disclosed a long list of net gains ranging from 1 to 8 points Trading showed a substantial in-crease in volume over previous see-

Trading showed a substantial increase in volume over previous essions this week, the day's sales falling just short of 1,500,000 shares.

Easier money rates, facilitating the operations of pools, provided the chief ground work for the advance. Call money was officially quoted as low as 3½ per cent for the first time since last September, and that rate was shaded in the "outside market." Rumors of an early decrease in the rediscount rate of the New York Federal Reserve Bank were again in widespread circulation.

Curiously, the rise in prices also was associated with the rise in temperature on the theory that the warmer weather would stimulate the demand for motor cars, spring wearing apparel and other merchandise which has suffered because of recent unseasonable weather. Increase in Vanadium Steel dividend, the decision of Commercial Solvents Company to retire its \$½ per cent notes and the preferred and Class "A" stocks, and the publication of several favorable earnings reports, including that of the Crucible Steel Company, whose income for the six months ended March 31 was the best in its history, also had a bullish effect on sentiment.

RAIL NEWS BULLISH

RAIL NEWS BULLISH

The demand for the railroad shares was stimulated by the continuance of heavy freight car loadings, the publication of a series of unusually favorable March earnings statements and reports that the Van Sweringen Brothers were preparing the formation of a new "Nickel Pinte" merger plan. Atlantic Coast Line soared to 197 and then yielded to 195, where it was up 8 points on the day, while net gains of 2 to nearly 6 points were recorded by Atchison, Baltimore and Ohio, Delaware and Hudson, Lackawanna, Rock Island, Reading Southern Railway, Wabash.

United States Steel common led the advance in the standard industrials by moving up over 5 points to 121 1-4, and closing within a fraction of the top. Net gains of 2 points or more also were recorded by Allied Chemical, American Locomotive, General Motors, Hudson, Marine preferred, Mack Trucks, Montgomery Ward, United States Rubber.

The advance in many specialties was accelerated by the operations of the bear traders, several of whom discovered a scanty floating supply of stocks when they sought to cover their commitments. Dupont, General Electric, Woelworth, the Commercial Belvents issues, and Remington Typewriter, all closed 4 to 6% points higher. Local tractions again gave an impressive demonstration of group strength under the leadership of Interborough Rapid Transit, the buying movement being accompanied by talk of less opposition on the part of the municipal admin-

Interborough Rapid Transit, the buying movement being accompanied by talk of less opposition on the part of the municipal administration to higher fares.

Only a few issues failed to participate in the upward movement, the most conspicuous of which was Atlantic, Gulf and West Indies common, which fell back 1½ points to 32%, or within a small fraction of the year's low.

MONEY DROPS Call money renewed at 4 per cent and then dropped to 3 %, the lowest rate since September 20, 1925. Time money rates also softened, sixty to ninety day maturities being quoted at 4 1-4 with the longer and the second sixty to a second sixty second sixt

sixty to ninety day maturities being quoted at 4 1-4 with the longer dates commanding 4 3-8 to 4 1/2. Prime commercial paper rates were unchanged.

Commodity markets also pointed upward. Wheat closed 1 to 2 cents a bushel higher and cotton advanced about \$2 a bale on reports of heavy rains in the Southwest. Coffee closed 5 points lower to 15 points higher. Raw sugar was unchanged, but futures were slightly higher. Raw sugar was unchanged, but futures were slightly higher. Raw sugar was unchanged, but futures were slightly higher. Foreign exchanges were irregular, with the establishment of a new record low by Belgian francs at 3.57% cents and a new high by Japanese yen at 47 5-16 cents as the chief features. Demand sterling held firm around \$4.85 13-16 and French francs were slightly higher around 3.3% cents. Norwegian krone broke 15 points to

"Appraised by The American Appraisal Co."

The above phrase in security advertisements means:

That the property has been examined by a staff of thoroughly experienced investigators with the single objective of obtaining and recording all the facts which have a bearing on its value.

That these value facts have been translated into terms of money through the utilization of authentic statistical data and that the result is not one of individual opinion but of demonstrable truth.

That the value has been established by an organization which does not buy, sell, build, operate or finance property, is both disinterested and competent, and which has a keen sense of its moral responsibility to the investing public.

Prof. Turner will speak on the origin and accumulation of petroleum as related to the organic life of the past, and the symmetry marking the chemical side of the components of petroleum. The blending of these components by nature to make the so-called "paraffin-base oil" and "asphalt-base oil" and "asphalt-base oil" and "asphalt-base oil" five rise to several interesting considerations of the geologic past.

The lecture will discuss the future possibilities of petroleum, not from the standpoint of its use for

PHOENIX, April 21 .- Perma London, decided to leave his pro-fession at home and come to Cana-as president, Warren McArthur as London, decided to leave his profession at home and come to Canada he did not reckon with the long arm of Scotland Yard's service reaching as far as the Pacific Coast.

Dr. Smith left a wife and family in England and his wife called in the police and demanded that they locate him. Canadian immigration officials here were advised that Dr. Smith was wanted and to hold him for further orders.

Dr. Smith was held for a short time and then he managed to convince the Canadian immigration board that he would be a desirable citizen. He asserted that he could not live happilly with his wife. He was given landing rights. Dr. Smith took up residence on Vancouver Island where, not wishing to follow his regular profession, he became a hotel-keeper. He came into conflict with the law for minor infractions and in one case served time in iail, according to the authorities.

time in jail, according to the authorities.

Here again Scotland Yard took a hand, maintaining that the man had become an undestrable by having been convicted of crime in Canada, which caused the immigration board to sit again and order his deportation. Habeas corpus was granted and the case will come before the courts in Victoria this week.

This is the first time habeas corpus has been granted a white man in immigration matters in British Columbia, according to local officials.

advocates of simplified spelling who are at the present time petitioning Parliament, have found their cause an ancient one.

About 300 years ago, the then Rector of Rotherhiths, Thomas Gatacre, adopted a system of "reformed spelling" in his published works. Spelling such as "question," "tru," "ded," and "believ" were among those he invented. Advocates of phonetic spelling, however, point to Militon as a sounder authority, because the original text of his "Comus" contains words like "dred." "believe," "limms" and "dred."

Wedding Gift Suggestions

Do the wedding invitations you receive mean perplexed ideas about the present which is to follow?

Investigate this store, which has gathered from the finest markets hundreds of fine quality articles of good taste and character. If the price of the gift has been limited, all the better, for here you will find a whole department filled with gift suggestions of sterling silver and fine glass wares mounted with silver, which range from \$5 to \$15.

Do not sacrifice the character of your gifts because you think that such a store confines itself to only the more expensive articles.

"The entire project is one which was instituted and has been carried forward for the past ten years by the public," stated Mr. True.

"During my term as Councilman we considered the advisability of a union terminal depot at the Plaza site from every angle, and finally in 1918 passed a resolution in its favor. Our engineers at that time advised against unsightly and unsafe elevated raliroads and hased their recommendation for the Plaza site on its accessibility to the greater majority of Los Angeles residents.

PLANS HARMONIZE

"With broad highways of travel extending from the Plaza in every direction, street car and passenger travel will be greatly facilitated. The plan also provides for the construction of a subway connecting with the present Pacific Electric station."

Mr. True pointed out that the Plaza union depot will harmonize with the Civic Center project, now under-way.

"The historic old Plaza will be beautified under the projected plan," he said, "and the present union depot and the Civic Center will form one of the greatest civic achievements in the United States."

LAST RITES SAID TODAY

Funeral services for Anthony J. Amestoy, one of the oldest and most prominent citizens of Los Angeles, whose death occurred last Monday, will be conducted at \$1.50 a.m. today at St. Thomas's Church in Pico Heights. Interment will be at Calvary Cemetery.

Mr. Amestoy was born July 26, 1867, on the old Los Felis Rancho, now the center of the world's greatest motion-picture industry, in Hollywood. He was the son of Domingo Amestoy, who came to California from France in 1819 and who made a part of his fortune during the gold rush of the early days.

Although he retired from active business several years ago. Mr. Amestoy was for many years one of the most influential ranchers and business men in the Sauthland. He saw Los Angeles grow from a pueblo to its present position of one of the greatest cities of the world.

Busides his widow, Terese Amestey, and his son, Louis Amestoy. Mr. Amestoy leaves four brothers and three sisters. The brothers are Messrs. John B., Peter D., Michel F. and Joseph F. Amestoy, and the sisters are Mr. Juanita A. Giess, Mrs. Louis Eentous and Mrs. C. W. Wells, all of Southern California.

The Right Spirit

ARTESIA (Cal.) April 18.—[To the Editor of The Times:] As a late Angeleno I felt proud this moraing to read your editorial. "Twenty Years After." recounting the events connected with the earthquake of 1906 and extolling the unconquerable spirit and marvelous achievements of the people of our sister city at the Golden Gate.

This editorial acknowledging the dauntless spirit of what some folks prefer to allude to as a rival city epitomizes the spirit which we go to our churches to cultivate on this Sabbath morning.

Christianity's chief efficacy lies in its operations in the affairs of men, and no more genuine evidence of its spirit can be found than when this spirit guides and controls the man in his daily tasks. I am sure that the multitudes who read The Times feel a deeper respect and a truer regard for the men who control it because of the generous spirit which such editorials breathe toward the city at the north.

For seventeen years I lived one and one-half blocks from the South Side L. There was always a noise and a continual vibration, sometimes one would think they were on a boat. It is not only dirty, but darkens the entire surface for a half of a block.

Here there are no alleys to build it along. It depreciates property. My property on Lake street depreciated inside of one year 35 per cent. Has never yet got back to real normal price. It seems to me that all of the Chicago people here would vote against elevateds. A union station is the right part of the city would be a wonderful addition. It surely could be made beautiful and to most people coming to a new city the first impression is always the most lasting. If bonds have to be issued, why not have a sabway from Civic Center to South Broadway and Twelfth and again vote No against the L. A CHICAGO LADY.

A PLAIN STATEMENT OF FACT

To the Millions who will Buy Tires in the Next Few Weeks

When a great company knows within itself that it has accomplished something outstanding, it has a duty to the public, to its past customers, and to itself, to let that fact be known.

So we make this statement: there is more mileage in Goodrich Silvertown Cords this year than in any tires this company has ever built.

To have surpassed all previous standards of excellence is an accomplishment. For Silvertowns have always been the sum total of tire excellence.

This accomplishment is one of patience and careful attention to small things-small things which make a tremendous total. It is based, not on the introduction of any revolutionary new principle, but upon consistent improvement in the tire which has already proved itself "best in the long run."

With full realization that the word involves comparison, we pronounce the present Goodrich Silvertowns the finest tires ever made by Goodrich; finest in design and construction.

This statement is made with the knowledge that our files in Akron contain many letters from past users-motorists who have secured 15,000-25,000-35,000 miles from individual tires and sets of tires in previous years.

To you who are now considering the purchase of tires, we urge that you consult the Goodrich dealer and let him apply the Silvertowns best designed for your personal motoring requirements.

and extending through to alin's street, where it also will front fifty feet.

N. Walton Alspaugh, architect, is preparing plans for the structure, which will cost, he declares, \$500,000. It will be built for Max Winter of the Winter Construction Company, which firm has the site on a ninety-nine year lease involving a total gross rental, said to be approximately \$3,000,000.

The structure will be unusual in that each floor will be devoted to one office occupied by a single tenant. A large garage will have the ground floor space on the Main-street side.

Entailing more than \$1,000,000 in rentals and sale prices, the twenty-year lease and furnishings of the 250-room Stillwell Hotel on South Grand avenue was purchased yesterday by the Lincoln Investment Company, according to announcement by Ben Weingart, its president. The property is owned by the Los Angeles Cemetery Association and the deal was negotiated by Cason-Hardebeck & Co.

Neither can they find out what prompted the act, being unable to find a love affair, money troubles or anything else that might have prompted a mental depression. According to police report, licgan went into the barn in the rear, climbed up a ladder, tied a rope around a door sill and his mock, and then cocked a loaded 25-caliber rife. When he fired the hullet into his head, he jumped from the ladder and later was found dangling and dead. of California's educational system.
Waiter E. Morgan, Assistant State
Puperintendent of Public Instruction, today told the 600 State highschool principals who are meeting
here at the Hotel Huntington this
week in their annual convention.
"A great number of teachers
throughout the State are now giving instruction in which they are
not particularly qualified," he declared, citing lengthy analyses compiled by his department. "Teachers
prepare in college to give instruction in a certain subject, lay all
their plans in that direction, state
the fact on their applications, and
are then transferred to an antirely
different department when they
are given positions."

Examinations in high schools, as
conducted at present, lose much of
their value because they are too
hard, said Dr. Frank C. Touton,
who also spoke this morning.

Dr. William M. Proctor of Stanford University was the chief
speaker of the afternoon session,
addressing the delegates on "The

Dr. Proctor, who is a member of
the mational committee, outlined
the work which it is beginning, of

pushing his wife rudely out of her own kitchen constitutes cruelty.

Mrs. Amy Bryson declared yesterday in a separate maintenance action filed against Ernest J. Bryson.

The complaint, drawn by Attorney Charles W. Cradick, states that on Easter Sunday morning Bryson refused to permit his wife to cook breakfast. He pushed her out of the kitchen, she recites, forgot to stop pushing, and ultimately she found herself outdoors in a rain storm and the front door locked.

The complaint likewise adds that on a Sunday morning in last February Mrs. Bryson began cooking dinner at 10 a.m. and did not have the meal prepared until 5:30 p.m. because Bryson playfully insisted on repeatedly turning out the gas.

Louis Ghiardi, in a ditch near Pacolma, was made yesterday by Detective Lieutenant Allen of the missing-persons bureau of the police department when telegrams bearing the man's description were Lrcadcast throughout the Stata. The man who, according to Alfen, is about 70 years of age, is being held in the psychopathic ward of the General Hospital, About tendays ago a passing motorist found him in a ditch near the small town of Pacolma and took him to the police station in San Fernando. A card found in the pocket of his coat bore the above name. He was well dressed, clean and neat in appearance, and apparently a member of a well-to-do family. It appeared that he was suffering from loss of memory. **NEW POLICE STATION OPENS** City Officials Have Banquet in Highland Park,

the public broke all General Motors records

January 1926 was the best January in General Motors' history.

·February was the best February.

But March broke all records for sales to consumers in any previous month.

These record increases in sales were not confined to any section, but were nation-wide. There is throughout the country a growing appreciation of these General Motors policies: (1) quality first and foremost; (2) sweeping economies through the coordination of many companies in one united organization; (3) low finance charges; and (4) maximum value in each price class. These policies will be maintained.

Traffic Accidents

Nearly twenty years ago J. G. Cunningham was slain in Carson City, Nev., and bulletins carrying the murderer's name and description were broadcast to many cities. A few days ago a newly appointed detective-lieutenant browsed through the fles of the Los Angaray complaint instead. The might be acquainted with the features of some of the criminals wanted by traffic accidents late yesterday.

Junior Tomblin, 2½ years of age, was injured fatally by his father's automobile at his home at 220 South Camdon Drive, Beverly Hills, according to the police report. His father, A. Tomblin, was backing the machine into the garbacking the machine into the garb
